

There must be much more choice and true American freedom. The business plans of a few corporates are affecting millions of Americans daily. That is wrong. An enterprise like ClearChannel has the potential to manipulate millions of Americans by simply running the control, subject. of their choice. Even with the current FCC rules, this is already a problem. The same applies to other media avenues. I say 'NO' to lifting the rules, 'NO' to allow ownership to be extended. -- Daniel Owen Howell
